X1 MEMORANDUM FOR:

SUBJECT : Reference to Request from Mr. Knocke for  
Projects That May Have Provided Help to DIA

1. Analytical Support Center -

X1 Funding  per year jointly by CIA, ARPA,  
and IC Staff. DIA could levy projects on the center.

2. Elite analysis of the Yugoslav military -

Funding from OPR and IC Staff. External research  
contract in FY 75 to Rand; the results will be useful to  
DIA.

3. External research support to indexing PRAVDA.

Some funding provided by CRS, IC Staff, INR, and  
others to improve the index. Index will be available  
to DIA.

4. CRS is transferring software and operating experience  
of the Machine Assisted Dissemination System (now in use by  
CIA) to DIA for their operational use. No cost to DIA.

5. Ruble/dollar ratio project.

Secretary of Defense has shown interest in this  
project which is sponsored by OER. DIA has attended  
planning meetings and the military cost area would  
benefit greatly from results. Funding still in doubt.

6. The OCI Glossary of Terms and Techniques in Political  
Analysis has been sent to DIA.

7. OBGi has made some of the results of their research  
in computer plotting of geographic and cartographic information  
available to DIA.

SECRET

SECRET

8. OTR Information Sciences Center trains DIA personnel.

9. DIA personnel participated in the OPR project on the Bayesian Analysis on North Vietnam. It is planned to have DIA personnel participate in a Mid-East project. Although DIA has not been contacted as yet, the project should be underway by mid-December or early January.

10. DIA also receives the benefit of many other projects that are done by offices such as OWI, ORD, OSI among others. Similarly CIA offices receive the benefits of DIA work such as the NMIC project.

11. I don't believe Mr. Knocke has a very good list to convince General Graham based on quid pro quo at this time. It would be better to ask for his current support and reciprocate in FY 76 when CIA offices may be better funded than they are in FY 75.

SECRET

MEMORANDUM FOR: JMC *new* FYI

John:

Last week Hank Knecht asked you for examples of projects funded by CIA that have been of help to DIA. He wanted it for a dialogue with Danny Graham regarding funding of the Joint Costing Board.

pulled together the attached list which (DATE)

I passed to Knecht. I later

received a call from Knecht's  
deputy -  - thanking  
me for the list. The matter  
has been resolved. DIA is  
picking up the tab this  
year.
